

RHOMAR WATER

Heat Transfer Fluids • Hydronic System Solutions

Water Test Request Form

INSTRUCTIONS:

- Please complete pages 1 & 2 for each sample sent.
- **Mark** each sample bottle with your company name and the type of sample.
- **NOTICE: DO NOT use pop or fruit drink bottles, only drinking water containers**
- Send **FULL PINT/16 oz. (less than 16 oz./pint samples may not be sufficient to complete all analyses)** samples to: **2103 E. Rockhurst Street, Springfield, MO 65802**

Date: _____

Company Name: _____

Address: _____

Contact Name: _____ Email Address: _____

Phone Number: _____ Fax Number: _____

System and Test Information: (Please fill out completely)

1. Customer Name: _____

2. Address: _____

3. Age of System: _____ yrs. _____ mos. Approximate volume of fluid in system: _____ gallons.

4. Hot Water Boiler Steam Chilled Loop Cooling Tower Makeup Water Geothermal

5. Is the makeup water softened? Yes No Not Sure

6. What metals are in the system? Aluminum Copper Iron Stainless Steel Not Sure

7. What brand of treatment or glycol, if any, is in the system? _____

8. Describe any problem or issue that you are having. _____

9. Select the type of testing needed on page 2 to determine cost.

Samples cannot be processed without payment information!

We accept MasterCard, Visa and Discover. Please send your credit card information, purchase order, or a check along with your water sample.

Card Type: MC Visa Discover

Name on Card: _____

Card Billing Address: _____

Card Number: _____ Exp. Date: _____

Credit Card Security Code _____

Purchase Order Number: _____

TESTING INFORMATION SHEET

Select one of the test descriptions listed below to indicate the type of tests you want performed:

\$30.00 Rhomar Glycol Test

\$65.00 All Other Glycol Brands

Percentage of glycol
Freeze Temperature
Rhomar Inhibitor level
pH
Conductivity

\$145.00

Commercial Analysis:

Conductivity
pH
Alkalinity
Total Hardness
Chlorides
Sulfates
Percentage of glycol
Freeze Temperature
Dissolved metals; aluminum, copper, iron
Inhibitors

\$85.00

Makeup Water Analysis:

Conductivity
pH
Alkalinity
Total Hardness
Chlorides
Sulfates

\$150.00

Scale / Sludge Analysis:

Minerals
Metals

\$30.00 Rhomar Treatment* Test

\$65.00 All Other Treatment Brands

Inhibitor levels
pH
Conductivity
*Pro-Tek®, BoilerGard™, BoilerPro™, WaterPro™

\$105.00

Residential Analysis:

Conductivity
pH
Alkalinity
Total Hardness
Chlorides
Sulfates
Percentage of glycol
Freeze Temperature
Inhibitors (if present)

\$105.00

Steam Boiler Water Analysis:

Conductivity
pH
Alkalinity
Total Hardness
Chlorides
Sulfates
Oxygen Treatment (if present)

Email **Fax** **Mail** **Please specify how you would like to receive your test results.**

(We prefer to send test results via email, usually within one week after receiving samples. Results for sludge samples may take longer.)

Comments will be made based on the type and age of system, condition of fluid, test results and problems listed in the comment section of item 8. Include as much information as possible to ensure accurate recommendations.

You may call **1-417-862-2600** if you have additional questions regarding your test results or if you would like to request additional testing other than what is listed above.

The "Comments" provided by Rhomar Water are based on the information provided with the "Water Test Request Form" and from the water analysis results. A careful inspection of the system along with additional information could have an effect on the "Comments" that are made.
